Index to Volume 2, 1959,

Journal of Speech and Hearing Research

Each article is indexed in three ways: by the last name of the author or authors (Author Index), by the first major word of the title (Title Index), and by subject matter (Subject Index). The following subject headings are used:

EXPERIMENTAL PHONETICS

- Acoustic Phonetics
- Auditory Feedback
- Communication Theory
- Intelligibility
- Physiological Phonetics
- Voice

GENERAL

HEARING (AUDIOLOGY)

- Audiometry (adults)
- Audiometry (children)
- Auditory Skills
- Auditory Training
- Community, Industrial, and Military Audiology
- Hearing Aids
- Physiological Acoustics
- Presbycusis
- Psychoacoustics
- Special Auditory Tests
- Speech Reading

JOURNAL DEPARTMENTS

- Book Reviews
- Graduate Theses in Speech and Hearing Research
- Letters to the Editor

LANGUAGE

- Aphasia
- Delayed Speech
- Phonetics
- Speech and Language Development

SPEECH PATHOLOGY

- Aphasia
- Articulation
- Cerebral Palsy
- Cleft Palate
- Dysarthria
- Examination and Evaluation
- Laryngectomy
- Stuttering
- Voice

Voice Quality and Anxiety, Charles F. Diehl and others: 2, September, 282-285.
Vowel Formant Measurements, Gordon E. Peterson: 2, June, 173-183.

SUBJECT INDEX

Experimental Phonetics

ACOUSTIC PHONETICS

Nonrandom Sources of Variation in Vowel Quality, William R. Tiffany: 2, December, 305-317.

Phonetic Study of Misarticulation of /r/, James F. Curtis and James C. Hardy: 2, September, 244-257.

Transition and Release as Perceptual Cues for Final Plosives, William S-Y. Wang: 2, March, 66-73.

Vowel Formant Measurements, Gordon E. Peterson: 2, June, 173-183.

AUDITORY FEEDBACK

Bibliography: Delayed Auditory Feedback, Richard Allen Chase and others: 2, June, 193-200.

Effect of Loudness Recruitment on Delayed Speech Feedback, Earl R. Harford and James F. Jerger: 2, December, 361-368.

Experimental Blockage of Phonation by Distorted Sidetone, Courtney Stromsta: 2, September, 286-301.

Performances of Normal-Hearing and Hard-of-Hearing Persons on the Delayed Feedback Task, Robert A. Butler and Thomas Galloway: 2, March, 84-90.

Sidetone Delay and Reading Rate, Articulation, and Pitch, G. Don Davidson: 2, September, 266-270.

COMMUNICATION THEORY

INTELLIGIBILITY

Equally Contributing Frequency Bands in Intelligibility Testing, John W. Black: 2, March, 81-83.

PHYSIOLOGICAL PHONETICS

Estimates of Intraglottal Pressure During Phonation, James L. Flanagan: 2, June, 168-172.

Respiratory Muscles in Speech, M. H. Draper and others: 2, March, 16-27.

Speech Pickup by Contact Microphone at Head and Neck Positions, John C. Snidecor and others: 2, September, 277-281.

VOICE

Note on Optimal Vocal Frequency, Arthur S. House: 2, March, 55-60.

Pitch and Duration Characteristics of Older Males, Edward D. Mysak: 2, March, 46-54.

Speech Pickup by Contact Microphone at Head and Neck Positions, John C. Snidecor and others: 2, September, 277-281.

General

Index to Volume 2, 1959: 2, December, 392-399.

Latin Square Design in Speech and Hearing Research, Leonard S. Feldt: 2, September, 216-228.

Hearing (Audiology)

AUDIOMETRY (ADULTS)

Conditioned GSR Auditory Speech Threshold, Joseph B. Chaiklin: 2, September, 229-236.

Electrophysiologic Responses to Sound as a Function of Intensity, EEG Pattern and Sex, Benjamin Rosenblüt and others: 2, March, 28-39.

Equally Contributing Frequency Bands in Intelligibility Testing, John W. Black: 2, March, 81-83.

Relation Among Three Selected Auditory Speech Thresholds, Joseph B. Chaiklin: 2, September, 237-243.

Some Factors Affecting the Spondee Threshold in Normal-Hearing Subjects, Tom W. Tillman and James F. Jerger: 2, June, 141-146.
Some Relations Between Normal Hearing for Pure Tones and for Speech, James F. Jerger and others: 2, June, 126-140.

AUDIOMETRY (CHILDREN)
Conditioned GSR Auditory Speech Threshold, Joseph B. Chaiklin: 2, September, 229-236.
Electrophysiologic Responses to Sound as a Function of Intensity, EEG Pattern and Sex, Benjamin Rosenblüt and others: 2, March, 28-39.
Relation Among Three Selected Auditory Speech Thresholds, Joseph B. Chaiklin: 2, September, 237-243.
Validity of the One-Frequency Screening Principle for Public School Children, Ira M. Ventry and Hayes A. Newby: 2, June, 147-151.

AUDITORY SKILLS

AUDITORY TRAINING

COMMUNITY, INDUSTRIAL, AND MILITARY AUDIOLOGY

HEARING AIDS

PHYSIOLOGICAL ACOUSTICS
Electrophysiologic Responses to Sound as a Function of Intensity, EEG Pattern and Sex, Benjamin Rosenblüt and others: 2, March, 28-39.
Post-exposure Residual Effects of Low-Level Noise, William J. Trittipoe: 2, December, 336-339.

PRESBYCUSIS

PSYCHOACOUSTICS
Conditioned GSR Auditory Speech Threshold, Joseph B. Chaiklin: 2, September, 229-236.
Equally Contributing Frequency Bands in Intelligibility Testing, John W. Black: 2, March, 81-83.
Post-exposure Residual Effects of Low-Level Noise, William J. Trittipoe: 2, December, 336-339.
Relation Among Three Selected Auditory Speech Thresholds, Joseph B. Chaiklin: 2, September, 237-243.
Some Factors Affecting the Spondee Threshold in Normal-Hearing Subjects, Tom W. Tillman and James F. Jerger: 2, June, 141-146.
Some Relations Between Normal Hearing for Pure Tones and for Speech, James F. Jerger and others: 2, June, 126-140.

SPECIAL AUDITORY TESTS
Effect of Loudness Recruitment on Delayed Speech Feedback, Earl R. Harford and James F. Jerger: 2, December, 361-368.
Electrophysiologic Responses to Sound as a Function of Intensity, EEG Pattern and Sex, Benjamin Rosenblüt and others: 2, March, 28-39.
Performances of Normal-Hearing and Hard-of-Hearing Persons on the Delayed Feedback Task, Robert A. Butler and Thomas Galloway: 2, March, 84-90.
Unconditioned Stimulus Strength and the Galvanic Skin Response, Leo G. Doerfler and Joan C. Kramer: 2, June, 184-192.

SPEECH READING
Factors Related to Lipreading, Audrey Ann Simmons: 2, December, 340-352.
Lipreading Performance and the Rate of the Speaker, Vincent W. Byers and Lewis Lieberman: 2, September, 271-276.
Relationships Among Three Filmed Lip-Reading Tests, John J. O'Neill and Mary C. Stephens: 2, March, 61-65.

Journal Departments

ANNOUNCEMENTS

Formal Call for Papers, The American Speech and Hearing Association Thirty-Fifth Annual Convention, 1959: 2, March, 3-4.

BOOK REVIEWS

Ein Binauraler Hörsynthese-Test zum Nachweis Zerebraler Hörstorungen (A Test of Binaural Auditory Synthesis for the Detection of Cerebral Hearing Disorders), Joseph Matzker, reviewed by Ruediger Thalmann: 2, March, 99.

Handbook of Noise Control, Cyril M. Harris, Ed., reviewed by Gordon E. Peterson: 2, March, 99-100.

GRADUATE THESES IN SPEECH AND HEARING RESEARCH

Graduate Theses in Speech and Hearing Research, 1957, Franklin H. Knower: 2, March, 91-98.

LETTERS TO THE EDITOR

Liaison Between ASHA and Army?, Ralph L. Shelton, Jr.: 2, March, 100-101.

Language

APHASIA

Dysphasic Speech Responses to Visual Word Stimuli, Gerald M. Siegel: 2, June, 152-160.

Scaling of Abstraction Level of Single Words, Frederic L. Darley and others: 2, June, 161-167.

DELAYED SPEECH

PHONETICS

SPEECH AND LANGUAGE DEVELOPMENT

Language Skills of Male and Female Kindergarten Children, Harris Winitz: 2, December, 377-386.

Language Skills of Profoundly Deaf Adolescent Children, Sidney Goda: 2, December, 369-376.

Relationships Between Language and Nonlanguage Measures of Kindergarten Children, Harris Winitz: 2, December, 387-391.

Speech Pathology

APHASIA

Dysphasic Speech Responses to Visual Word Stimuli, Gerald M. Siegel: 2, June, 152-160.

ARTICULATION

Phonetic Study of Misarticulation of /r/, James F. Curtis and James C. Hardy: 2, September, 244-257.

Training Parents of Children with Functional Misarticulation, Ronald K. Sommers and others: 2, September, 258-265.

CEREBRAL PALSY

Erythroblastosis and Perceptive Hearing Loss: Responses of Athetoids to Tests of Cochlear Function, Robert W. Blakeley: 2, March, 5-15.

CLEFT PALATE

Articulation Skills, Velopharyngeal Closure, and Oral Breath Pressure of Children with Cleft Palates, Duane C. Spriestersbach and Gene R. Powers: 2, December, 318-325.

Intelligibility and Associated Physiological Factors of Cleft Palate Speakers, Joanne D. Subtelny and J. Daniel Subtelny: 2, December, 353-360.

Nasality in Isolated Vowels and Connected Speech of Cleft Palate Speakers, Duane C. Spriestersbach and Gene R. Powers: 2, March, 40-45.

Pitch, Intensity, and Cleft Palate Voice Quality, Donald A. Hess: 2, June, 113-125.

DYSARTHRIA

EXAMINATION AND EVALUATION

LARYNGECTOMY

STUTTERING

Calling Attention to Stuttering, M. E. Wingate: 2, December, 326-335.

Effects of Hyperventilation and Tetany on the Speech Fluency of Stutterers and Nonstutterers, Wendell Johnson and others: 2, September, 203-215.

Frequency Analysis of Electroencephalograms of Stutterers and Nonstutterers, John R. Knott and others: 2, March, 74-80.

Measures of Stuttering Adaptation, Bruce Quarrington: 2, June, 105-112.

VOICE

Pitch, Intensity, and Cleft Palate Voice Quality, Donald A. Hess: 2, June, 113-125.

Voice Quality and Anxiety, Charles F. Diehl and others: 2, September, 282-285.
